

If you are looking for the best genealogist in the world, then look no further because you have found him! John Bedard is a darn good genealogist!

I hired John initially to do a small project for me because I wanted to assess his skills and talents. John did a great job with this small project finding exactly what I was looking for complete with documents, references, and other information. After discussing my goals with John and pricing, I decided to have him map my entire family tree. This was a great investment.

John has the best and most competitive pricing for the work he does. He even agreed to work with me on a payment schedule that fit my needs. Every week John would email me with an update of what he had found that week. This included pictures, references, documents, census bureau information, military service records, and the like. John was always accessible via email and phone when I had questions or if I needed clarification. John is incredibly friendly and very kind.

His knowledge, skill, ability, and talent are amazing. He is a great genealogist but he is also a phenomenal researcher, archivist, and historian as well! He is talented.

I highly recommend him for your project, give him a chance, you will not be disappointed.

If I can provide any additional information about John, please don't hesitate to contact me.
